Subject: Letter to Administrator Frederick, WDEQ RE: Categorical Redesignation of Streams in WY

Good afternoon Mr. McGrath,

Attached is a letter from the Wyoming Outdoor Council to Water Quality Division Administrator, Kevin Frederick regarding the state's recent decision to redesignate over three quarters of streams in Wyoming from Primary Contact Recreation to Secondary Contact Recreation. Our organization sent this letter on behalf of our 1,500+ members and the affected groups and organizations listed in Attachment A of the letter.

At this time, we hope that you will review the letter and take note of our concerns.

A copy of this letter was also sent to your office today, Oct. 10, 2014, via fax and U.S. Mail.

Best Regards,

Amber Wilson
